ScoliosisKC Informed Consent

Regarding Chiropractic Adjustments, Modalities and Therapeutic Procedures:

I have been advised that chiropractic care, like all forms of health care, holds certain risks. While the risks most often are very minimal, in rare cases, complications such as sprain/strain injuries, irritation of a disc condition, and although rare, minor fractures, and possible stroke, which occurs at a rate between one instance per one million to one per two million, have been associated with chiropractic adjustments.

Treatment objectives as well as the risks associated with chiropractic adjustments and, all other procedures provided at ScoliosisKC have been explained to me to my satisfaction and I have conveyed my understanding of both to the doctor. After careful consideration, I do hereby consent to treatment by any means, method, and or techniques, the doctor deems necessary to treat my condition at any time throughout the entire clinical course of my care.

Regarding Chiropractic Scoliosis Treatment (Adjustments, Modalities and Therapeutic Procedures)

I have been advised of the above as well as the standards associated with scoliosis treatment in regards to watching and waiting, bracing and surgery. I have also been informed of the risks associated with not following those standards. I'm also aware that there is no guarantee or promise of any results and I am aware that the scoliosis can still progress. After careful consideration, I do hereby consent to treatment by any means, method, and or techniques, the doctor deems necessary to treat my condition at any time throughout the entire clinical course of my care and under my free will choose not to follow the standards associated with scoliosis treatment.

REGARDING X-RAYS/IMAGING STUDIES

FELMALES ONLY → please read carefully and check the boxes, include the appropriate date, then sign below if you understand and have no further questions, otherwise see our receptionist for further explanation.

The first day of my last menstrual cycle was on ____/____/_____ Date

I have been provided a full explanation of when I am most likely to become pregnant, and to the best of my knowledge, I am not pregnant.

By my signature below I am acknowledging that the doctor and or a member of the staff has discussed with me the hazardous effects of ionization to an unborn child, and I have conveyed my understanding of the risks associated with exposure to x-rays. After careful consideration I therefore, do hereby consent to have the diagnostic x-ray examination the doctor has deemed necessary in my case.

MALES/FEMALES: By my signature below, I understand and give consent to be x-rayed if the doctor deems necessary.

Informed Consent - CLEAR Scoliosis Treatment

The purpose of this form is to document your understanding of the following.

_____ I understand that scoliosis surgery is recommended when the Cobb angle exceeds 40 degrees, I understand that on my most recent x-ray, the doctor measured my Cobb angle to be _____ degrees based on the x-ray I provided if the x-ray wasn't taken at ScoliosisKC.

_____ I understand that my CLEAR-certified doctor recommends that I continue any orthopedic appointments. In the event that my CLEAR Doctor has any concerns, he will refer me to the orthopedic surgeon if necessary.

_____ At this point in time, I have chosen not to undergo traditional bracing or surgery, and instead I have made the decision to undergo CLEAR chiropractic treatment for my scoliosis. I understand that my decision is outside of the established medical guidelines for traditional orthopedic scoliosis management.

_____ I understand that a lack of compliance with my CLEAR Doctor's recommendations regarding the treatment schedule and clinic and home therapies may result in a negative outcome and may result in dismissal of the patient.

_____ I understand that CLEAR scoliosis treatment may be seen by other medical professionals as ineffective and even harmful as a medical treatment program and the only effective treatment for scoliosis is surgery.

_____ I understand that alternatives to CLEAR scoliosis treatment exist, such as, but not limited to exercise, physical therapy, chiropractic care, massage, acupuncture, osteopathic manipulation, traditional bracing and surgery. I understand that these are available to me, even if I have not explored them.

_____ I understand that there are no guarantees in medicine and that the results of CLEAR scoliosis treatment may be disappointing. I understand that CLEAR scoliosis treatment does not guarantee me a cure or that it will even help my scoliosis.

_____ I understand that there is a possibility of insurance not covering CLEAR scoliosis treatment and that some insurance carriers may consider CLEAR scoliosis treatment to be "experimental".

_____ I understand that my decision to delay surgery could result in a greater risk of surgical complications should my Cobb angle continue to progress, and I decide to undergo surgery at a later point in time.

_____ I understand that my scoliosis has a risk of worsening over time. I understand that any scoliosis over 25 degrees has a significant chance of progression over time especially during adolescent growth. I understand the goal of CLEAR chiropractic treatment is to reduce and stabilize the scoliosis. My CLEAR Doctor has informed me that my scoliosis will not be cured. In the event that my scoliosis worsens, or any temporary reductions are lost, I agree to hold my doctor(s) and Clinic harmless for providing the treatment that I have chosen to receive.

_____ I understand and have been advised that CLEAR scoliosis treatment holds possible risks, which include, but are not limited to complications such as sprain/strain injuries, irritation of a disc condition, and although rare, minor fractures, and possible stroke, which occurs at a rate between one instance per one million to one per two million, have been associated with conservative chiropractic treatment.

If you have any questions, please contact your chiropractor before signing this form. Do not sign this form until all of your questions have been answered to your satisfaction.

ScoliosisKC: Office Policies

As a potential new patient, we feel it is important that you understand our office policies regarding, how patients of this practice are cared for, and the various methods we offer to facilitate payment for that care. Please read each policy carefully so there is no misunderstanding as to what you can expect as a patient of this practice, and what we expect in return. Once you have read "Our Office Policies", if you have any questions or any of these policies are unclear to you, and you would like further explanation before submitting your application for care, please let our front desk know and a member of our staff will be happy to discuss them with you further. We believe it is in everyone's best interests to provide potential new patients as much information as possible about how the doctor at this office practices chiropractic so that an informed decision can be made as to whether they wish to become a patient.

Over time, individuals who are accepted, as patients at this office, gain a greater understanding as to the purpose of chiropractic. Since the majority of patient care occurs in an open bay area, patients have a unique opportunity to observe firsthand the positive results that are achieved, and the benefits derived from being under chiropractic care. This knowledge and awareness reaps a positive environment that promotes healing and encourages families to maintain good health. We want your experience with us to be an exceptional one, so help us to help you and together we can make affirmative changes in your life and the lives of those you care about.

- **PATIENT PRIVACY** – Since the majority of patient care takes place in an open bay area it is important to understand that any conversations you have with the doctor can be overheard by other patients. In order to maintain patient privacy, it is the policy of this practice to refrain from discussing any confidential matters with patients during treating hours while patients are being adjusted. If you have a confidential matter you wish to discuss, please let us know and we will schedule time for you to speak to the doctor in a private consultation room. These consultations must be scheduled in advance.
- **YOUR CARE** – When a patient seeks chiropractic health care and we agree to provide that care, it is essential for the patient and the doctor to be working toward the same objective. Chiropractic care at ScoliosisKC is rendered primarily to minimize and reduce subluxations, which are a major interference to the expression of the body's innate wisdom. The doctor's use a myriad of techniques to accomplish this goal, including but not limited to the latest techniques for spinal correction. It is important that you understand both the objective and the method(s) so there is no confusion or disappointment. Tremendous progress has been made in the rehabilitating and correction of spinal problems. Where in the past, chronic spinal structural problems could not be reversed or corrected, today they can. Your doctor will outline a course of treatment that will take you beyond simple pain relief, through two distinct phases of care to make a structural correction to your spine that will enable your central nervous system to function optimally, thereby improving your overall health.
- **FIRST THINGS FIRST** – Prior to receiving chiropractic care at this office, a health history and examination will be completed. Imaging studies as well as any other necessary diagnostics may also be ordered to confirm the true nature of your condition and exact location of subluxations. You will be notified in advance if any further fees will be applicable. The results of these procedures will aid in assessing your presenting problem, your overall health and, in particular, the condition of your spine. They will also assist the doctor in determining the type and amount of care you will need. All relevant findings will be reported to you along with care plan recommendations so that you can make the best possible decision regarding your health care needs. Our gold standard for care is to ensure the reduction of subluxation while teaching patients what they need to do in addition to being adjusted to maintain their health for a lifetime.

I hereby acknowledge that I have read and understand the practices "Office Policies". This signature page will be retained by the practice as evidence of my receiving and understanding this 'Notice'. I further acknowledge that any concerns regarding these 'Policies' as well as all of my questions have been answered by a qualified member of the staff to my complete satisfaction.
